

75 Lyon Street Kihikihi NZ

This 1940's - 1949 home offers separate family living, heated by log fire, combined kitchen/dining room with a practical layout and three double sized bedrooms.

The bathroom has been remodeled and includes a modern shower box, vanity combined with toilet.

The generous back yard is a grassed play land with a variety of established fruit trees.

The recent addition of a double garage includes an extended concrete area that ensures a tidy space for off road parking.

This easy care property offers a small area of stoned, edged gardens limiting the time needed for maintaining a tidy appearance.

You'll find this property within walking distance to the main street shops, kindergarten and Bowling Green.
