3 1 3

Bursting with charm, the decor at this gorgeous 1960's home is on point and has been cleverly combined with yesteryear charm. Polished wooden floors in the open plan kitchen and dining area, fused with sleek subway tiles and fresh cabinetry makes this space appealing. Great indoor/outdoor flow onto a large deck that overlooks the impressive back section.

The living area is bright and roomy with French doors opening out onto the front deck. Enjoy privacy, elevation and nothing left to do here but sit back and relax. Plush new carpet, three double bedrooms, family bathroom, separate toilet and laundry complete the home and give extra options! Double plus carport and near new single garage, all set on an impressive 961m2 (approx.) section, tick all the boxes with this one.
